About Me

Undergraduate Computer Science student at BINUS University specializing in Data Analytics, Business Intelligence, and Database Technology. Experienced in organizational leadership, logistics management, and cross-functional team coordination. Proficient in transforming complex datasets into actionable business insights using SQL, Power BI, Python, and Tableau.

Work/Organization Experience

Head of Logistics Division | Keluarga Mahasiswa Katolik (KMK) *Jul 2025 – Present* | *Tanggerang, Indonesia*

- Led and directed a team of logistics activists in planning, procuring, and executing operational equipment for multiple university-wide events.
- Managed end-to-end event logistics, equipment inventory, and technical setups to ensure seamless event execution and zero operational delays.
- Resolved real-time technical and logistical bottlenecks during events by applying rapid problem-solving and resource allocation.
- Collaborated with internal committees, university authorities, and external vendors to secure venue licensing and operational permits.

Organization Activist | Keluarga Mahasiswa Katolik (KMK) *Nov 2024 – Jul 2025* | *Tanggerang, Indonesia*

- Supported the operational management of student events, developing strong team coordination, time management, and accountability.
- Assisted in handling event inventory, venue preparation, and cross-divisional communication to maintain workflow efficiency.
